

the lustrous  
**Colors**  
of Cambria

Variation in the natural stone (quartz) color, pattern, size, shape and shade are inherent and unique characteristics to be expected with this product. This does not affect the product performance in any manner. Photographs are of small select cuts from a slab; they do not exhibit all the characteristics of a color and combined with printing limitations are not fully representative of what will be installed in your home.

Enjoy the radiance and richness of premium quarry-cut stone along with the superior qualities that can only be found in natural quartz.

There's no other quartz surface that can match the classic beauty and elegance of Cambria's Quarry Collection™. Unlike other quartz surfaces, the Quarry Collection stands apart with its warm, captivating tones and the kinds of variations you can only find in nature. While the Quarry Collection looks much like a range of granite surfaces, it far surpasses granite when it comes to performance, strength and food safety. This stunning, new color collection is another Cambria innovation you won't find with any other stone surface.

QUARRY COLLECTION™

Cambria is pure natural quartz. Variation in the natural stone (quartz) color, pattern, size, shape and shade are inherent and unique characteristics to be expected with this product. This does not affect the product performance in any manner.

Cambria is structurally more resistant to surface damage than other stone. However, all stone can be damaged by excessive force or pressure.

Cambria is not a seamless product, seams are visible. Where there are seams the product pattern and shade can change (countertops).

Natural stone surfaces can be damaged by sudden and rapid change of temperature especially near the edges, as well as direct or sustained heating of the top. Cambria may not withstand the direct transfer of heat from pots and pans and other cooking units such as electric frying pans and griddles, and some crock-pots or roaster ovens and heat lamps. Therefore, the use of a hot pad or trivet is always recommended.

Cambria semi-gloss products will appear dull and will not shine (floor tile).

Cambria installation is optimized when walls and cabinets are properly prepared for installation. This includes but is not limited to structurally sound, straight, level and square walls and cabinets, lack of which may cause poor installation and poor seam fit, or inconsistent countertop overhang and placement.

Cambria installation does not include qualification of any sink or stove cutouts (any cutouts), faucet hole locations or cabinet sizes. Cambria IS NOT responsible for verifying if sinks, stove or other cutout appliances, cabinets and faucet hole locations fit together well, or at all. This is the responsibility of the homeowner, general contractor, or the like. Cambria will fabricate cutouts per supplied model/template information. Cambria IS NOT responsible for the accuracy of the information provided.

Cambria installation does not include any plumbing or electrical work (countertops).

Discover the natural  
beauty of Cambria

BEAUTY

# SIMPLY BEAUTIFUL

Beautiful rooms begin with Cambria.

Cambria adds beauty to your kitchen. Elegance to your bath. Sophistication to your floors or fireplace. Light-capturing crystals of pure quartz bring a feeling of luxury to any setting.

Cambria features a sleek, smooth surface. A brilliant, natural luster. And an exquisite palette of colors. Its diamond-like hardness provides extraordinary strength. So it's worry free and easy to maintain.

Discover the natural beauty of Cambria. You'll be dazzled by its versatility, durability, and quality.

LUXURY

Victoria™

Enduring beauty, lasting quality, timeless appeal.

**materials** | Cambria looks natural because it is. Cambria is pure natural quartz. It's not a composite of other soft minerals like granite. Cambria's luminous character and natural origins are revealed in crystals visible throughout. **color** | A leader in color innovation, Cambria is available in a wide variety of designer colors. Cambria features the Quarry Collection™ that boasts the look and feel of granite and the high performance of quartz.

**endurance** | Laboratory tests prove Cambria is twice as strong as granite. It's a surface that is everlasting.

Natural Quartz Surfaces™

Coswell Cream™

STRENGTH

Go ahead. Dish it out. Cambria can take it. It's as durable as it is beautiful.

**strong** | Diamond-like hardness, superior strength. So durable, even your finest cutlery won't harm it. **care free** | No sealing, polishing, or reconditioning. Simply wash with warm water. It's that simple.

**food safe** | Cambria is non-porous and has been certified by NSF, International for use as a food preparation surface. Rest assured, there is no safer surface for food preparation.

**stain resistant** | Cambria will resist stains from fruit juices, food coloring, coffee, tea, grape juice and nail polish.

**quality** | Unmatched quality from the only producer of quartz surfaces in the United States. Cambria is covered by a 10-year Residential Limited Warranty.
